EDUCATION

Royal institute of technology
Stockholm
August 2019 – 2023

Bachelor's degree Chemical Engineering

The education provides complete knowledge for work in chemical engineering. The main subjects studied in this education are biotechnology, chemical engineering, analytical chemistry, and environmental protection engineering.

Royal institute of technology
Stockholm
August 2017 – June 2019

Bachelor's Degree Mechanical Engineering

After studying Mechanical Engineering for two years, I came to the realization that it did not align with my interest. Upon reflection, I recognized my true passion for Chemical Engineering and made the decision to switch my major accordingly.

Mira Costa College
California
August 2015 – June 2016

One year college with general subjects

Following the completion of my technical high school degree, I dedicated a year to pursuing several courses of my personal interest, including AutoCAD, Mathematics, English, and Business.

WORK EXPERIENCE

Mellifiq full-time
Stockholm
November 2022 – February 2023

Industrial Sales Engineer

Using Mellifiq's advanced ozone, activated carbon, membrane, and UV-light technologies, I designed and marketed personalized air and water treatment solutions to an international customer base. My responsibilities included creating process solutions that met each customer's individual requirements.

Hawaii Poke part-time
Stockholm
June 2018 – June 2019

Cash register and cooking

Preparing ingredients, serving food to customers, and handling the cash register.

Lidingö Golf Club full-time
Stockholm
June 2019 – August 2019

Summer job as Greenkeeper

Mowing of tees, greens, banks and fairway, pest and weed control as well as health and safety concerns.

Collett Svetsmaskinsservice AB full-time
Stockholm
June 2016 – August 2017

Collett Svetsmaskinsservice AB

Assignments consisted of handling the gas depot and providing customers with the right type of gases, product transport, logistics and helping customers.
